Communication between two parties only happens when the message is Sent, Received, Understood and Acknowledged. Everything else is just noise.

JULY, 2007

FIELD DAY

Field Day has come and gone and I must say it was a success. While we haven't got all the numbers tallied, I think we did quite well. There were a total of 15 participants, of which, 9 were members of the A.R.E.S. group. The site also had 3 visitors. A big thanks to all.

I would also like to thank Mike Cauterman (VE3QSK), Greg Foster (VA3GGF), Harry Kosterman (VA3EC), and Derek Latremouille (VE3DDL). These individuals provided their station equipment for the event.

Set up went well, with the site providing us with a few challenges to keep it interesting. The weather was clear all weekend and the band propagation seemed to cooperate. I hope to get some pictures posted on the O.A.R.C. web site later on.

ON THE WEB

An interesting site to hit is the
www.hard-core-dx.com

I found the section on grounding very good. Check it out.

If you have any sites that you think might be of interest to other members just send me the link and I will put in the newsletter.
